I don't know how accurate the second flute part is. I'm literally basing it on about three notes. But it sounds good, so I'll leave it.

Maybe not voice, but that's what it sounds like to me.

I can *almost* sing that low C.

Acc.

The treble and bass clef sound like separate instruments, and they kind of overlap, but they also both sound like accordion. I don't know if that's just how accordion works, and I'm too lazy to research it... so I'm just going to put it as one instrument. Please correct me if I'm wrong.
