Mandolin

The musical score is for the song 'Such a Friendly Town' by Amie Waters. It is written in 4/4 time with a tempo of 100 beats per minute. The key signature has four flats (Bb, Eb, Ab, Db). The score includes parts for Clarinet in Bb, Recorder 1 (marked *mf* and 'ordinary'), Recorder 2, Glockenspiel, Congas, Drum Kit (marked *mp*), Drum Kit 2, another Drum Kit, Sleigh Bells, Wood Blocks, Guiro, Saw Synthesizer, Sine Synthesizer, Square Synthesizer, Guitar (with a Capo 1), Melodica, Bass Guitar (marked *mf*), and Mandolin. The guitar part is written in standard notation with a capo on the first fret, showing fret numbers and chord shapes. The bass guitar part is in the bass clef. The wood blocks and guiro parts use rhythmic notation with 'x' marks for specific sounds. The congas and drums use standard rhythmic notation. The synthesizers and melodica parts are currently silent, indicated by whole rests.

These should be longer notes, but MuseScore is broken.

It's slightly more interesting than this, but the more complexity I add to this, the less likely I am to want to finish it.

I can only hear it well enough to know that it's *not* this, but sort of similar. Plus I just thought it would be cool to add in this theme.

The high overtones on that Bb annoy me.

I'm not going to care too much about perfect accuracy for this part.

In fact, I'm just going to copy and paste the same four measures and assume it's close enough.

There's definitely more in the background, but this is all I can clearly hear.

(dotted 8th delay)

Could be harmonica or accordion or something. And maybe it's playing something more complex, but if so, I can't tell.

It's hard to make guitar sound good in MuseScore, but it's definitely better than it used to be.

Muse Sounds is great.

I'm copying and pasting because the frequency is basically random.

This is all I can hear.

Technically it's just quieter, not muted, but whatever.

The strumming pattern is almost definitely inaccurate, but it's hard to hear.
